INTRODUCTION

Who we are

An intuitive and innovative provider of turnkey solutions for a wide range of clients and industries, Salam Technology is a digital infrastructure systems integrator and IT solutions provider with a customer-centric approach that has made us the premier technology company of Qatar.

Qatar has consistently captured the attention of local, regional and international investors. From its strategic location to the vast array of opportunities for trade and investment, it's a thriving hub of activity both locally and internationally.

Qatar's national ambition, future-focused development and economic prosperity shaped us. It's often called the pearl of the Gulf and we are proud to call it our birthplace and home. Salam technology draws its strength from Qatar's visionary leadership, its dynamic economy and the roaring potential of its market.

OUR MISSION

To be characterized in the IT market by agility, focus and innovation in delivering cutting edge technology solutions and building trusted partnerships with our clients. We strive to achieve this through excellence, quality, and commitment to first-class service.

OUR VISION

To be a regionally recognized premier technology integrator, led by example, measured by success and focused on professionalism and profitable growth.

We provide
smart solutions
for your business.

OUR HERITAGE

Salam International Investment Limited (SIIL), our parent company, is one of the oldest and most respected conglomerates of Qatar.

Founded by Abdul Salam Mohammed Abu Issa in 1952, SIIL has evolved from humble roots as a small, family-run photographic retailer into a leading regional conglomerate. Effectively listed in the Qatari Stock Exchange in 2002, SIIL has 24+ subsidiaries diversified into contracting and Trading, Retail & Distribution, Investment, Real Estate and Information technology.

Constantly assessing an ever-changing market, SIIL recognised the need for a larger entity that could stand on par with regional and global players. Through the merger of Omnix Qatar and Salam Technical Services (two companies with distinct technology driven competencies) a synergistic powerhouse formed, Salam Technology. Salam Technology's roots have given the company a unique blend of over 30 years of cumulative experience and accomplishments in broadcast, IT, audiovisual, security, office automation, telecommunications and managed resources.

OUR VALUES

Aspiration

Our past and present are woven together. We draw inspiration from the past, paying homage to our heritage, while working towards one common goals, we aspire to be more tomorrow than we are today.
